PRODUCT INFORMATION

The WheelHorse

- The versatile forest machine

Have You missed a machine for small scale forest work that are developed for accessibility, capacity and usability?

We are extremely pleased to be able to present a revolutionary concept that involves an articulated “thinning forwarder” that you can both go on and manage by the joystick you know from IronHorse.

We have used well-tried technology solutions from Iron Horse and combined this with the need for a new “thinning forwarder” to the small-scale forestry. Just as the Iron Horse The Wheel Horse is a complete system for forest, farm and transport in different terrain. Flexibility, strength, and low ground pressure makes it an environmentally friendly alternative to heavier machines. The machine is easy to operate and easy to get started and work with.

In comparison to the many ATV vehicles with trailers, this product is fully developed for practical use in the forest and at the same time, it has properties that allow it to quickly run slightly longer distances, due to its high speed gear.

MACHINE – THE WHEELHORSE

WheelHorse with T1750 4WD crane with grip 30-50

art No. 968 7450-30

The WheelHorse is equipped with the reliable Honda engine of 13 Hp The vehicle is unique with its mechanical transmission and high- and low gear. The hydraulic engagement on the trailer is easy to control from the steering handle and the machine has 6 wheel traction, when there are need extra power for pulling. The trailer is equipped with a powerful grip that have a big lift capacity comparing to it size.

Dim (mm) L x H x W	4650x1990x1350 (*incl rollover bar)
Extension trailer	4650 – 5230 mm
Max load capacity	17500 Kg
Transmission	Variator/gearbox/Chain transmission
Hydraulic	Double pump 1,9/3,8 cm ³
Total weight incl. trailer	1390 Kg
Engine	Honda air Cold 4-stroke OHV 13 HP
Traction trailer	Hydraulic transmission
Max speed	15/6 km/h (gear high/low)
Cranes reach/lifting capacity	3,0 m/240kg 1,2m/500 Kg
Support legs	Hydraulic

ACCESSORIES WHEELHORSE

High and low gear on the trailer

Part No. 531 0170-22

With low and high gear on the trailer, you can get more powerful traction when needed

Extensionsbar for Crane 30-60

Part No. 531 0170-18

+90 cm
Cranes reach/lifting capacity

4,4 m/160 Kg

2 Levers valve kit

Part. No 531 0170-32

Valve kit consist of 2 levers for all movement except support legs and grip that has separately levers.

Bracket for chainsaw and gasoline can

Part. No. 5310170-33

Attached on the security bar

Hydraulic winch, radio controlled **Part No. 531 0170-00**

RC Hydraulic winch HV500 is a reliable and proven construction. The winch kit is complete with also radio controlled box, wire, hook, hoses, and electrical controlled hydraulic valve.

Weight	11 Kg
Speed	30 m/min
Oil pressure	190 bar
Maximum pull strength	500 Kg
Rec. Oil flow	10-15 l/min
Radio controlled	2 channels
Wire/thickness	5 mm
Range RC	Ca 50 m
Wire length	25 m

Snow chains **Part No. 531 0170-12**

With the snow chains attached on the front wheels, You get the protection for preventing to slip.

Dimension:	10.0/75-15,3
------------	--------------

Working lights LED 10-80V **Part No. 531 0151-38**

LED lights are low power and have high tolerate of vibration and gives an terrific light. Every LED has it's own reflektion sektor.

Dredger bucket DS55

Part No. 531 0170-09

Dredger bucket is an accessory for the WheelHorse crane to be attached where the grip is mounted.

It's perfect to have when cleaning the ditches or other areas combined with the dumper trailer. Also good to use when transporting soil, gravel or stones.

Volume is 55 liter

Dredger bucket GL50L

Part No. 531 0170-08

Dredger bucket is an accessory for the WheelHorse crane to be attached where the grip is mounted.

It's perfect to have when cleaning the ditches or other areas combined with the dumper trailer. Also good to use when transporting soil, gravel or stones.

Volume is 50 liter

Dumper trailer FL250V

Part No. 531 0170-05

FL250V dumper trailer is adapted for tough handling, 3 mm thick plate in the lower part and reinforced side flaps.

It's equipped with double rear folded flaps. You can transport soil, gravel, stones and equipment even people easily. The total trailer is galvanized for optimal long life span.

Length:	225 cm
Total height flaps:	50 cm
Width:	122 cm

Bracket for Gasoline can 10L

Part No. 531 0170-14

Practical bracket for gasoline can.
